 Society of Endometriosis
and Uterine Disorders

SEUD President:
Pr Felice Petraglia, Italy

Congress Presidents:
Pr Charles Chapron, France & Pr Felice Petraglia, Italy

WELCOME LETTER

Dear colleagues,

In this difficult time, SEUD does not forget objectives and missions:

- study the uterine disorders negatively affecting women's health;
- update their management in order to improve women's quality of life.

This is why, a new form of annual congress has been studied and proposed to you!

SEUD ONLINE WEEK will focus on "Update in the medical and surgical treatment of endometriosis and uterine disorders".

The online congress will include the main elements of our annual event: plenary sessions, keynote lectures, symposia and selected free communications.

From November 3rd to November 6th, 2020, you will discover a daily program focusing on endometriosis, uterine fibroids, adenomyosis and abnormal uterine bleeding. During all of our live sessions, you will be able to interact with our worldwide experts and more importantly get new knowledge and expertise!

Innovation and research are our key points, thus we are convinced of your interest in this new event!

Don't forget to contribute by submitting an abstract for selected free communications.

Enjoy our SEUD ONLINE WEEK!

Charles Chapron & Felice Petraglia,
Congress Presidents

FINAL PROGRAM AT A GLANCE

MONDAY, NOVEMBER 2ND

12:00	SEUD ONLINE WEEK INTRODUCTION
12:15	SYMPOSIUM HOLOGIC[®] Minimally invasive gynaecology and Covid
13:00	

FACULTY

- | | |
|--|--|
| Mauricio Abrão , Brazil | Oskari Heikinheimo , Finland |
| Bruno Borghese , France | Andrew Horne , United Kingdom |
| Francisco Carmona , Spain | Louis Marcellin , France |
| Charles Chapron , France | Felice Petraglia , Italy |
| Jacques Donnez , Belgium | Pietro Santulli , France |
| Hervé Fernandez , France | Gamal Serour , Egypt |
| Juan-Antonio Garcia-Velasco , Spain | Sony Singh , Canada |
| Grigoris Grimbizis , Greece | Hugh Taylor , USA |
| Sun-Wei Guo , China | Thierry Van den Bosch , Belgium |
| Tasuku Harada , Japan | Silvia Vannuccini , Italy |

TUESDAY, NOVEMBER 3RD

11:45	SEUD ONLINE WEEK OPENING
12:00	PLENARY SESSION #1 Endometriosis
13:00	SYMPOSIUM abbvie It's time to talk: breaking the silence around uterine fibroids
14:00	KEYNOTE LECTURE #1 Endometriosis, a complex systemic disease
14:30	

FREE AND OPEN REGISTRATION ON WWW.SEUD.ORG

All the sessions will be **live** and streamed on **Paris time zone (GMT+1)**.

WEDNESDAY, NOVEMBER 4TH

12:00	PLENARY SESSION #2 Abnormal uterine bleedings
13:00	SYMPOSIUM VIFOR PHARMA Patient blood management strategies to improve outcomes in gynecology and obstetrics
13:40	SYMPOSIUM MYOVANT SCIENCES New perspectives in uterine fibroids
14:20	

THURSDAY, NOVEMBER 5TH

12:00	PLENARY SESSION #3 Uterine fibroids					
13:00	SYMPOSIUM GEDEON RICHTER A pragmatic approach to the management of uterine fibroids					
14:00	SYMPOSIUM Obseva One size does not fit all: the power of the GnRH antagonist MoA to personalize fibroid management					
14:40	FREE COMMUNICATIONS					
15:30	<table border="1"> <tr> <td>FREE COM. 1</td> <td>FREE COM. 2</td> <td>FREE COM. 3</td> <td>FREE COM. 4</td> <td>FREE COM. 5</td> </tr> </table>	FREE COM. 1	FREE COM. 2	FREE COM. 3	FREE COM. 4	FREE COM. 5

FINAL SCIENTIFIC PROGRAM

MONDAY, NOVEMBER 2ND

12:00 - 12:15 – SEUD ONLINE WEEK INTRODUCTION

Charles Chapron (France) & Felice Petraglia (Italy)

12:15 - 13:00 – SYMPOSIUM

HOLOGIC®

Minimally invasive gynaecology and Covid

Discussion on moving elective procedures to ambulatory to maximise efficiency

Speakers: Sony Singh (Canada)
& Jan Willem van der Steeg (Netherlands)

- Panel discussion/Q&A

TUESDAY, NOVEMBER 3RD

11:45 - 12:00 – SEUD ONLINE WEEK OPENING

Charles Chapron (France) & Felice Petraglia (Italy)

12:00 - 13:00 – PLENARY SESSION #1

Endometriosis

Chairs: Charles Chapron (France),
Felice Petraglia (Italy) & Sony Singh (Canada)

- New medical treatments, Felice Petraglia (Italy)
- A modern surgical approach, Mauricio Abrão (Brazil)
- Center of excellence for endometriosis, Charles Chapron (France)

13:00 - 14:00 – SYMPOSIUM

abbvie

It's time to talk: breaking the silence around uterine fibroid

The burden of uterine fibroids:
enhancing the conversation, identifying and treating patients

Speakers: Ayman Al-Hendy (USA),
Sony Singh (Canada) & Sateria Venable (USA)

14:00 - 14:30 – KEYNOTE LECTURE #1

Chairs: Charles Chapron (France) & Felice Petraglia (Italy)

Endometriosis, a complex systemic disease, Hugh Taylor (USA)

WEDNESDAY, NOVEMBER 4TH

12:00 - 13:00 – PLENARY SESSION #2

Abnormal uterine bleedings

Chairs: Charles Chapron (France),
Oskari Heikinheimo (Finland) & Felice Petraglia (Italy)

- Diagnosis: modern imaging approach, Thierry Van den Bosch (Belgium)
- New hormonal treatments, Oskari Heikinheimo (Finland)
- Surgical approach, Grigoris Grimbizis (Greece)

13:00 - 13:40 – SYMPOSIUM

Patient blood management strategies to improve outcomes in gynecology and obstetrics

Chair: Aryeh Shander (USA)

- Understanding the role of patient blood management in the gynaecology setting, Aryeh Shander (USA)
- Reducing the risk of poor outcomes post-hysterectomy – a case-based discussion, Ally Murji (Canada)
- Panel discussion/Q&A and summary, all faculty

WEDNESDAY, NOVEMBER 4TH

13:40 - 14:20 – SYMPOSIUM

New perspectives in uterine fibroids

Chair: Kristina Gemzell-Danielsson (Sweden)

- Welcome and introduction – The 21st century perspective, **Kristina Gemzell-Danielsson (Sweden)**
- “Nothing about me without me”: the patient perspective, **Erica Marsh (USA)**
- New perspectives on treatment, **Ayman Al-Hendy (USA)**
- Closing remarks and take-home points, **Kristina Gemzell-Danielsson (Sweden)**

THURSDAY, NOVEMBER 5TH

12:00 - 13:00 – PLENARY SESSION #3

Uterine fibroids

Chairs: Charles Chapron, Hervé Fernandez (France) & Felice Petraglia (Italy)

- New medical treatments, **Jacques Donnez (Belgium)**
- A modern surgical approach, **Francisco Carmona (Spain)**
- Infertility management, **Gamal Serour (Egypt)**

13:00 - 14:00 – SYMPOSIUM  GEDeon RICHTER

A pragmatic approach to the management of uterine fibroids

Chair: Jacques Donnez (Belgium)

- Fibroids and infertility, **Edgardo Somigliana (Italy)**
- Pre-operative treatment of uterine fibroids, **Attilio Di Spiezio Sardo (Italy)**
- Management of fibroids in the perimenopause, **Josep Estadella (Spain)**

THURSDAY, NOVEMBER 5TH

14:00 - 14:40 – SYMPOSIUM

One size does not fit all: the power of the GnRH antagonist MoA to personalize fibroid management

Chairs: Jacques Donnez (Belgium) & Felice Petraglia (Italy)

- Introduction – The E2 theory and Linzagolix: a new oral GnRH antagonist, **Felice Petraglia (Italy)**
- Heavy menstrual bleeding due to uterine fibroids: Lingazolix efficacy and safety, **Hugh Taylor (USA)**
- Hormonal add-back therapy in the treatment of uterine fibroids, **Jacques Donnez (Belgium)**
- Closing remarks, **Hugh Taylor (USA)**

14:40 - 15:30 – FREE COMMUNICATIONS

Free communications 1: endometriosis

Chair: Louis Marcellin (France)

- Depression, anxiety and endometriosis: a systematic review and meta-analysis, **Esther Van Barneveld (Netherlands)**
- Infertility in women with bowel endometriosis: first-line assisted reproductive technology results in satisfactory cumulative live birth rates, **Louis Marcellin (France)**
- Bowel preparation prior to transvaginal ultrasound improves the detection and visualization of rectosigmoid deep infiltrating endometriosis. A prospective study among women with suspected endometriosis without surgical criteria, **Cristina Ros (Spain)**

- Differential molecular targets and mechanisms of green tea polyphenol EGCG *versus* Pro-drug of EGCG (Pro-EGCG) as novel treatments for endometriosis identified by *in-silico*, *in-vitro* and *in-vivo* combined approaches, **Sze Wan Hung (Hong Kong)**

Free communications 2: endometriosis

Chair: Charles Chapron (France)

- Does the presence of concomitant adenomyosis alter surgical outcomes in die surgery? **Gracia Meritxell (Spain)**
- Effects of Cytotraxin-b treatment on endometriotic lesion survival in an immunocompromised mouse model, **Anna Leonova (Canada)**
- Utilizing OR black box technology to identify and characterize intraoperative delays, distractions and threats in the gynecology operating room: a pilot study, **Alysha Nensi (Canada)**
- Endometriosis and the dissemination of information on the Internet: myths or facts? **Trish Dinh (Canada)**
- Differential oral, vaginal, and stool microbiota composition in women with and without endometriosis, **Mathew Leonardi (Australia)**

Free communications 3: endometriosis**Chair: Bruno Borghese (France)**

- Evaluation of clinical and sonographic changes after one year of combined oral contraceptive continuous regimens in endometriosis patients, **Pilar Carrillo Torres (Spain)**
- Expression of angiotensin-(1-7) and type-2 angiotensin converting enzyme in human endometrium and endometriosis, **Miguel Piassi Martins Quessada (Brazil)**
- Further evidence that endometriosis is related to adnexal cancer: a study of 271,444 inpatient women, **Perrine Capmas (Canada)**
- Importance of the medical interview of infertile women: severe pelvic pain is associated with the presence of an endometriosis, **Marion Ouazana (France)**
- Increased rate of spontaneous miscarriages in women affected with adenomyosis associated with endometriosis, **Benjamine Pham (France)**

Free communications 4: endometriosis**Chair: Pietro Santulli (France)**

- Life course analysis among women who feel especially impacted by endometriosis: survey results, **Stacey A. Missmer (USA)**
- Long-term treatment of endometriosis with dienogest: real-world results from the VIPOS Study, **Tanja Böhnke (Germany)**
- Outcomes in patients undergoing robotic assisted laparoscopic hysterectomy with endometrial hyperplasia or grade 1 endometrial adenocarcinoma, **Laura McLeod (Canada)**

- Severe dysmenorrhea is the primary contributor to low physical quality of life in Canadian women referred to a tertiary care centre for management of endometriosis, **Teresa Flaxman (Canada)**
- Successful multidisciplinary treatment for complicated deep infiltrating endometriosis: step-by-step demonstration of laparoscopic surgery, **Xiaofang Yi (China)**

Free communications 5: endometriosis**Chair: Silvia Vannuccini (Italy)**

- Superficial endometriosis can be seen on ultrasound: a diagnostic accuracy study of a novel ultrasound technique called saline-infusion sonoPODography, **Mathew Leonardi (Australia)**
- Two-year experience in endometriosis surgery in a tertiary referral center, **Isabel Matas (Spain)**
- Update on abdominal wall endometriosis: experience in a tertiary care center, **Laura López Marín (Spain)**
- Utilization patterns of hormonal endometriosis treatments in Europe - Final results from the VIPOS study, **Sophia von Stockum (Germany)**

16:00 - 16:40 – FREE COMMUNICATIONS

Free communications 6: uterine fibroids**Chair: Bruno Borghese (France)**

- Does adenomyosis impact in the quality of sexual life and on the couple relationship? **María Ángeles Martínez Zamora (Spain)**
- The burden of adenomyosis: an analysis of quality of life, mental health and work productivity impairment, **María Ángeles Martínez Zamora (Spain)**
- Impact of a “blood conservation bundle” on perioperative transfusion rates during myomectomy, **Alysha Nensi (Canada)**
- Exploring the delays to diagnosis of endometriosis in the United Kingdom: a triphasic mixed-methods study, **Karavadra Babu (United Kingdom)**

Free communications 7: uterine fibroids**Chair: Charles Chapron (France)**

- Ulipristal acetate use in adenomyosis: results of a randomized controlled pilot study, **Perrine Capmas (France)**
- The effect of Linzagolix on heavy menstrual bleeding (HMB) due to uterine fibroids (UF): results from a placebo-controlled, randomized, phase 3 trial, **Jacques Donnez (Belgium)**
- Pre-surgical planning using patient specific 3D printed models for women with uterine fibroids, **Teresa Flaxman (Canada)**

- Patient global impression of change in non-bleeding uterine fibroid symptoms (PGIC-NBUFS) in Elaris UF-1 and UF-2 trials, **Ayman Al-Hendy (USA)**

Free communications 8: uterine fibroids**Chair: Louis Marcellin (France)**

- Immunological changes associated with adenomyosis: a systematic review, **Mathilde Bourdon (France)**
- Presence of focal adenomyosis lesion based on MRI is associated with infertility issues, **Mathilde Bourdon (France)**
- Assessing the knowledge of endometriosis diagnostic tools in a large, international lay population, **Mathew Leonardi (Australia)**

Free communications 9: pain/AUB/uterine fibroids**Chair: Silvia Vannuccini (Italy)**

- Women's perceptions on endometriosis-related pain treatment and interactions with their healthcare practitioners, **Oscar Antunez Flores (USA)**
- Improved samanta questionnaire to detect heavy menstrual bleeding in clinical practice, **Joaquim Calaf (Spain)**
- The impact of a handheld portable hysteroscope on physician management plans for abnormal uterine bleeding, **Suzannah Wojcik (Canada)**
- Hysterectomy and bilateral salpingectomy for adenomyosis by transvaginal natural orifice transluminal endoscopic surgery, **Che Xuan (China)**

THURSDAY, NOVEMBER 5TH

Free communications 10: infertility/endometriosis

Chair: Pietro Santulli (France)

- Neither endometriosis nor surgery of endometriosis lesions affect reproductive outcomes in natural cycle IVF, **Gemma Casals (Spain)**
- Characteristics of pain in adolescents affected by endometriosis: preliminary results of a case-control study, **Sara Scaramuzzino (Italy)**
- Predictive variables for postoperative opioid requirements following hysterectomy, **Samantha Benlolo (Canada)**
- Step by step guide to surgical management of recurrent interstitial ectopic pregnancy, **Humara Edell (Canada)**

FRIDAY, NOVEMBER 6TH

12:00 - 13:00 – PLENARY SESSION #4

Adenomyosis

Chairs: Charles Chapron (France), Felice Petraglia (Italy) & Pietro Santulli (France)

- An update on the pathogenesis of adenomyosis, **Sun-Wei Guo (China)**
- Conservative management of adenomyosis, **Tasuku Harada (Japan)**
- Endometriosis/adenomyosis recurrences, **Andrew Horne (United Kingdom)**

13:00 - 14:00 – SYMPOSIUM

Now more than ever: the pandemic as catalyst of the paradigm shift in gynecological therapy

Chair: Sony Singh (Canada)
Speakers: Joaquin Calaf (Spain) & Charles Chapron (France)

14:00 - 14:30 – KEYNOTE LECTURE #2

Chairs: Charles Chapron (France) & Felice Petraglia (Italy)
Fertility preservation in women with endometriosis, Juan-Antonio Garcia-Velasco (Spain)
