

## E-POSTERS LIST

### ABNORMAL UTERINE BLEEDING

Real-world treatment and outcomes for heavy menstrual bleeding from large electronic health records results from the Characterization and Treatment Pathways of HMB (Champion-HMB) study.

**Federica Pisa, Germany**

Correlation between transvaginal sonography, hysteroscopic and histopathological findings in patients with abnormal uterine bleeding at southern Philippine medical center. **Lairah Untao, Philippines**

Heavy menstrual bleeding: a nationwide survey of Spanish women perception. **Josep Perello, Spain**

Treatment of abnormal uterine blood loss in premenopausal women: a clinical guideline. **Nathalie Filliers, Belgium**

How should we identify 'success' in treatment of heavy menstrual bleeding (HMB)? **Pamela Warner, United Kingdom**

### ENDOMETRIOSIS/ENDOMETRIUM

Circulating microparticle levels in patients with deep infiltrating endometriosis can be modified by hormonal treatment.

**Pilar Carrillo Torres, Spain**

Genetic aspects of endometriosis-associated infertility.  
**Marianna Abitova, Russian Federation**

Experience report of the new AAGL score classification system in our endometriosis unit. **Gracia Meritxell, Spain**

Anhedonia in deep endometriosis patients with severe chronic pelvic pain. **María-Angeles Martínez-Zamora, Spain**

Impact of covid-19 vaccination on menstrual disorders in women with endometriosis. **Georgina Feixas, Spain**

Risk of cardiovascular diseases among women with endometriosis : a meta-analysis. **Lorraine Maitrot-Mantelet, France**

Does desogestrel improve endometriosis-related pain and endometriotic lesions? Results of a pilot study  
**María-Angeles Martínez-Zamora, Spain**

Establishment of a rodent model of endometriosis to evaluate the effect of new therapeutic strategies. **Rana Assaly, France**

Review of indicators of quality of life and sexual function in women with moderate-severe endometriosis. **Santana Alejandra, Spain**

Several renal involvement in young patients with endometriosis in the 21st Century. **Santana Alejandra, Spain**

Quality of life in patients with deep infiltrative endometriosis after minimally invasive surgical treatment.

**Elvira Barbulea, Romania**

The impact of laparoscopic surgery for endometriosis on patient symptoms. **Khadijeh Shadjoo, Iran**

Can we preach the failure of medical treatment in patients with endometriosis? **Ludmila Ocón Padrón, Spain**

Deep infiltrating endometriosis of diafragma - a review.  
**Monica Gomes Ferreira, Spain**

Diagnosis of clear cell carcinoma arising from an endometriosis cyst during in vitro fertilization process: a case report.

**Marta Valdés-Bango, Spain**

Diffuse uterine capillary haemangioma simulating a clinical picture of adenomyosis. **Jose Carlos Vilches Jimenez, Spain**

Characteristics of pain in adolescents affected by endometriosis: preliminary results of a retrospective cohort study.

**Maria Federica Viscardi, Italy**

London North West University Healthcare NHS Trust - Endometriosis Centre. **Nikolaos Machairiotis, France**

#Endometriosis influencers on Instagram: Who are they and what are they posting? **Samantha Shiplo, Canada**

Urinary tract endometriosis: a single center experience and meta-analysis. **Saeed Alborzi, Iran**

Intrauterine platelet rich plasma: current status.  
**Aboubakr Elnashar, Egypt**

The role of coexistence of endometriosis and uterine septum on pregnancy outcome. **Ismail Afaf, Egypt**

Endometriosis and ovarian cancer: a systematic review and meta-analysis. **Elham Askary, Iran**

Practice changes during a pandemic - excision of Villar's nodule under local anesthesia. **Michelle Jacobson, Canada**

## E-POSTERS LIST

### FIBROIDS/ADENOMYOSIS

Adenomyosis is an independent risk factor for complications in deep endometriosis laparoscopic surgery. **Cristian De Guirior, Spain**

Impact of adenomyosis on the patient's quality of life in a tertiary hospital. **Joanne Luy, Philippines**

How do adenomyosis ultrasound criteria change after the onset of medical treatment? **Marta Camacho, Spain**

Is there a limit on the number of hysteroscopies to preserve the fertility? Report of clinical case. **Alexis Mauricio Agüero Mariño, Spain**

Role of alternative medicines in managing uterine fibroid.  
**Dave Nidhi, India**

### MINIMALLY INVASIVE SURGERY

Plypectomy, myomectomy and RPOC resection in the office setting  
**Marta Tortajada, Spain**

Optimization of office setting hysteroscopy with hysteroscopic tissue removal systems (HTRS). **Marta Tortajada, Spain**

A case report of undescended left ovary with partial left fallopian tubal agenesis and right tubal ectopic pregnancy without uterine abnormality. **Viktoria Palla, Germany**

Implementation of Home Hospitalization and early discharge in major gynecologic surgery. **Alexis Mauricio Agüero Mariño, Spain**

Comparison of gain in quality of life (SCDV-MU) on patients with benign gynecology conditions undergoing uterine artery embolization versus laparoscopic total hysterectomy: real evidence-based study.  
**Silvia Agramunt, Spain**

Low-grade adenosarcoma on deep endometriosis.  
**Jose Carlos Vilches Jimenez, Spain**

Role of hysteroscopy in management of AUB in virgins.  
**Ahmed Elsherbiny, Egypt**

### OTHER

Task shifting cesarean sections in low- and middle-income countries: a systematic review and meta-analysis. **Rea Konci, Canada**

Pelvic actinomycosis affecting genital and digestive tracts: a case report. **Matas Isabel, Spain**

Impact of endometrial microbiome on fertility. **Aboubakr Elnashar, Egypt**

### PAIN

Adherence to Mediterranean diet and clinical symptoms in patients with deep endometriosis. **Lara Quintas-Marques, Spain**

Lymphangioma of the ovary. **Radhouane Achour, Tunisia**
