

# E-POSTERS LIST

---

## **ABNORMAL UTERINE BLEEDING**

- Fertility-sparing management of atypical hyperplasia: case report and review of the literature. **Cyrine Belghith (Tunisie)**
- Prediction of Malignancy of the Endometrium Among Premenopausal Women With Abnormal Uterine Bleeding: A Retrospective, Cross-Sectional Study in A Tertiary Hospital in Cebu City. **Hannah Victoria Yu-Sasuman (Philippines)**
- Endometrial cancer with cervical extension in a young woman about a case. **Sihem Djelti (Algeria)**

---

## **ENDOMETRIOSIS/ENDOMETRIUM**

- A retrospective study of surgically treated 32 ovarian endometrioma with preoperative suspicion of ovarian malignancy. **Arisa Takeuchi (Japan)**
  - Endometriosis or Chronic Pelvic pain--Disparities in Inpatient Care. **Chinomso Okorie (United States)**
  - Outcomes and recurrence after non radical surgical management for bowel endometriosis. **Cristina Redondo (Spain)**
  - Rectal endometriosis revealed by a colonic tumor in occlusion case report and literature review. **Fatima Boutaibi (Morocco)**
  - Improving a Clinical Trial Design in Endometriosis-related Pain: Patient-Engagement Research and Regulatory Impact. **Felipe Arbelaez (United States)**
  - True incidence of diaphragmatic endometriosis and risk factors associated with diaphragmatic endometriosis. **Michael Mueller (Switzerland)**
  - Melatonin- A new potential biomarker with a role in the diagnosis and treatment of endometriosis - a review of data from the literature. **Cristina-Elena Mandici (Romania)**
  - Survivin as a biomarker for non-invasive diagnosis of minimal-mild endometriosis. **Maria Yarmolinskaya (Russia)**
  - The features of creating a combined model of endometriosis and alloxan induced diabetes in rats. **Maria Yarmolinskaya (Russia)**
  - Serological autoimmune profile of systemic lupus erythematosus in deep and non-deep endometriosis patients. **María Angeles Martínez-Zamora (Spain)**
  - Real-world Reproductive Outcome and Gynecologic Comorbidities in Women With Endometriosis in a non-IVF setting: A Retrospective study. **Maryam Al Shukri (Oman)**
  - The suitability of frozen tissues for the single-cell transcriptomic studies of endometriosis. **Meruert Sarsenova (Estonia)**
  - A Case Report of CHOCOLATE CYST managed successfully with alternative medicines. **Dave Nidhi (India)**
  - Circulating microparticle levels in patients with endometriosis and infertility. **Pilar Carrillo Torres (Spain)**
  - Comparing the quality of life of endometriotic patients' before and after treatment with normal and infertile patients based on the EHP30 questionnaire. **Tahereh Poordast (Iran)**
  - Combining gluten free diet with apigenin - a new strategy to reduce chronic pain from endometriosis. **Vanda Ioana Saritanu (Romania)**
  - Platelet-rich plasma in ivf management for poor endometrial receptivity patient: does it work? **Fridya Wulandari (Indonesia)**
-

---

## FIBROIDS/ADENOMYOSIS

- Bromocriptine inhibits proliferation in eutopic endometrium from women with adenomyosis. **Yiqun Tang (Sweden)**
- Case series: clinical outcomes of adenomyosis therapy using ultrasound-guided high intensity focused ultrasound (hifu) in nigeria. **Bilkisu Kankia Lawal (Nigeria)**
- Clinical characteristics of cystic adenomyosis: a report of 13 cases. **Erina Satake (Japan)**
- The role of the immune system in the development of reproductive disorders in women with adenomyosis. **Muratova Nigora (Uzbekistan)**
- Myomectomies: a three year experience of a Portuguese centre. **Fernanda Cristina Alves (Portugal)**
- Adenomyoma recurrence after surgery: a case report. **Marta Camacho (Spain)**
- Disseminated peritoneal leiomyomatosis and endometriosis: a case-report. **Marta Valdés-Bango Curell (Spain)**
- Conservative management of a 30 cm myoma. **Salma Bouguerra (Tunisia)**
- Efficacy of transvaginal bilateral uterine artery ligation as treatment for adenomyosis with abnormal uterine bleeding. **Afaf Aly Ismail (Egypt)**
- The use of a heated oxygen-helium mixture at the stage of rehabilitation in patients after myomectomy. **Danil Kotsuba (Russia)**

---

## MINIMALLY INVASIVE SURGERY

- Optimization of office setting hysteroscopy with hysteroscopic tissue removal systems (HTRs). **Marta Tortajada (Spain)**
- Surgical outcomes for robot-assisted laparoscopic myomectomy compared with laparoscopic myomectomy. **TBC**
- Laparoscopic Detorsion of Adnexal Masses in Adolescents. **Sigrid Barinaga (Philippines)**
- The feasibility of gasless single-port access laparoscopy in overweight patients undergoing adnexal surgery. **Hwang Jong Ha (Korea)**
- Laparoscopic ilioobturator dissection, about a case. **Akila Selit (Algeria)**

---

## OTHER

- Impact of covid-19 on cardiac activity in pregnant women. **Eshonkhodjaeva Dildora (Uzbekistan)**
- Impact of alloimmunization on the outcomes of pregnancy and birth in women with rh-negative blood type. **Guldjahan Babadjanova (Uzbekistan)**
- Anencephaly and rachisis: about an observation. **Nacima Kaci (Algeria)**
- Mastitis Granulomatous: Case study and review of the literature. **Leila Chouali (Algeria)**

---

## PAIN

- Managing pain with essential oil. **Adane Ania (Algeria)**
  - Volvulus of the fallopian tube on epiploic band about a case. **Leila Chouali (Algeria)**
-
